FORMAL EXAMINATION BEGINS

The Omani Patent Office has recently started formal examination of all pending patent applications. All applicants are required to bring their files in line with the new formalities which were introduced in February 2010. This procedure comes as a preliminary step for substantive examination which is expected to begin soon.

For your information, the filing requirements of patent applications are as follows:
1. 3 copies of the application form in English and in Arabic
2. 3 copies of the abstract of the invention in English and in Arabic
3. 3 copies of the technical specification and claims of the invention in English and in Arabic
4. 3 sets of formal drawings in English and in Arabic
5. Electronic copies of items 1 to 4

By way of background, the Omani Patent Office started accepting patent applications in 2005 after the introduction of the official fees schedule (published in Official Gazette no. 805 dated December 17, 2005), which completed Ministerial Decree no. 37 issued earlier on September 10, 2005 regarding the implementing regulations of Patent Law no. 82 of 2000. On May 12, 2008, Oman introduced a new Industrial Property Rights Law by virtue of royal decree no. 67 of 2008, which replaced Law no. 82 of 2000. The regulations implementing Law no. 67 of 2008 came into force in the country on December 17, 2008. Since then, however, the Patent Office was working on its setup in the preparation for implementing the new regulations and so, examination of patent applications was put on hold.

In light of the above, Saba & Co. IP will be reviewing all files in coordination with the Omani Patent Office and will notify clients of any incomplete records.

RECORDAL IN ABU DHABI SOON

Recordal of trademarks is expected to be implemented in the Abu Dhabi Emirate very soon. The filing requirements for the recordal and the recordal period have not been announced yet. Customs recordal in UAE is now available in only three Emirates out of seven: Dubai, Sharjah and Ras Al Khaimah. The recordal in the three Emirates is valid for the trademark’s protection term, renewable for like periods. The requirements for registering a trademark are as follows:
1. Power of attorney, notarized and legalized up to the UAE Consulate.
2. Certified copy of the registration certificate of the trademark to be recorded.
3. Filing request form.
4. An electronic presentation of the original product to aid the Customs officials in detecting counterfeit products and differentiating them from original ones.

By way of background, the countries of our region which currently offer customs recordal, in addition to the UAE, are Cyprus, Morocco, Sudan, Turkey and Tunisia. It is worth mentioning here that Customs recordal is expected to be implemented in Qatar during the course of this year pursuant to the new Law on Intellectual Property Rights Border Measures.

THE SUNRISE PHASE IS APPROACHING

Now that the Sunrise Phase of Arabic domain names in Tunisia is approaching (June 1st to September 28th, 2012), we would like to emphasize on the fact that domain name requests should only be based on trademarks registered / filed in Tunisia in Arabic. In light of this, we believe that the next course of action for applicants interested in domain name registration should be as follows:
1. Identify the Arabic domain names of interest
2. Check whether there is an adequate protection of the Arabic transliteration of the trademarks
3. File the necessary trademark application for the Arabic marks in case not available
4. Register the Arabic domain names in order to prevent any attempts of cyber-squatting.

ACCESSION TO THE HAGUE AGREEMENT SOON

The Director General of the World Intellectual Property Organization welcomed the deposit of the instrument of accession of Tunisia to the Hague Agreement Concerning the International Registration of Industrial Designs on March 13, 2012. The said Treaty will enter into force in the country on June 13, 2012.

The Hague Agreement currently has a total of 60 contracting member states. Member states from our region include: Egypt, Morocco, Oman, OAPI, Syria, Tunisia and Turkey.

Should you have any inquiries or comments regarding the subject matter, please contact us at tunisia@sabaip.com.

CLASS HEADINGS NO LONGER ACCEPTABLE

Pursuant to an official notification issued by the Trademark Office on April 11, 2012, claiming class headings is no longer acceptable. Applicants will no longer be able to file an application claiming the whole class without specifying the particular goods/services. In other words, the actual language of the goods or services specified in the registration will define the parameters of the scope of protection of a registration. This new decision applies to all new applications. As for pending and not accepted applications, an office action is expected to be issued at the time of examination in case the list of goods/services claimed requires modification. Applicants will be informed accordingly.
